

# ***Interdisciplinary Intersectionality in Theoretical Physics***

This workshop will facilitate a dialogue between physicists and experts studying the "*culture of physics*", with the goal of plotting the path of least resistance toward an equitable and just scientific practice within physics.

## ***Speakers include***

**Chanda Prescod-Weinstein**

**Martina Erlemann**

**Carolina Vidor**

**Wafaa Khater**

**Melissa Dancy**

**Nuril Munfaridah**

**Minna Salminen-Karlsson**

**Meytal Eran-Jona**

**Jaclyn Bell**

**Lucy Avraamidou**

### ***DAY 1***

**Epistemic Injustice:  
understanding exclusionary  
practices in the academy**

### ***DAY 2***

**A Focus on Physics:  
specific issues of  
accessibility in physics**

### ***DAY 3***

**Towards Justice: an  
exercise in collective  
sense-making**

***22 - 24 MARCH 2023***

**University of Göttingen**
