

General Information on Beyond XAI Workshop

We want to thank you for your participation. We are sure to have an exciting and remarkable experience by having all of you at the Georg-August University of Göttingen, University Medicine Göttingen (UMG) Campus (Robert-Koch-Str. 40, 37075 Göttingen) to learn and discuss Explainable AI in Biomedicine and Health Applications.

As you already know, the program can be found at the following link: [Enlight Workshop Beyond XAI \(umg.eu\)](https://enlight-workshop-beyond-xai.umg.eu); as well as information on hotels and how to achieve the UMG building by car or bus, as well as a map showing the localities and rooms in which the Workshop will take place.

Coffee, drinks, and snacks will be given during the coffee breaks (see program). A pause of 10 min between the main lectures block is planned and pauses at libido at the exercises block (the main point is to do the task on time in a relaxed atmosphere). The lunches will also be provided without cost in our canteen at UMG, in the same building where the workshop will take place. We will provide detailed information upon your arrival.

You cannot achieve Göttingen directly by flight; Göttingen is a vibrant university city with a rich historical academic, and cultural heritage. Göttingen is the home and workplace of several Nobel prize winners, artists, and known scientists even before the Nobel Era. Its historical architecture is concentrated in the town center. In the north of the city, modern buildings for research create a citadel where the new generation of scientists works together.

Several “big” cities near Göttingen can be achieved by flight, like Hannover, Berlin, and Frankfurt. From there, you can take an Intercity City Express train (ICE) and other trains (IC, RE), which differ from the ICEs’ velocity and comfort, reflecting the price differences to travel to Göttingen. If you have a student ID, you can receive special travel prices. Do not hesitate to ask travel agencies or information centers before buying your tickets for mobility. The trains are managed by the German company “German Railway” or Deutsche Bahn: [Cheap Train Tickets | Timetables for Germany & Europe - Deutsche Bahn](#)

Inside the city, you can rent a roller, a bike, walk or use the bus. The UMG is easily achievable from every point of the town.

We are happy to welcome you from 17th to 21st July in Göttingen.

Good travel!

Best regards,

Beyond XAI Organizers.
